Spartan RV Chassis Parts & Accessories Launches One-Touch Automatic Leveling System at the 2022 Florida RV SuperShow

January 14, 2022

Leading-edge technology provides stress-free air leveling

NOVI, Mich., Jan. 14, 2022 /PRNewswire/ -- [Spartan RV Chassis](http://SpartanRVChassis.com), a go-to-market brand of The Shyft Group (NASDAQ: SHYF), will exhibit at the 2022 Florida RV SuperShow and introduce for the first time its Red Diamond™ Leveling System, an exclusive aftermarket option.

The Leveling System brings quick and easy leveling to your RV, without the use of jacks. This segment-leading air spring leveling system is available for installation on Class A Coaches on a Spartan Chassis, model year 2000 or newer not already equipped with air leveling. With a simple and intuitive touchscreen interface, users have a full suite of leveling functionality, including:

- One-touch automatic leveling
- Manual leveling with control of each air spring while traveling at low speeds or while in park
- Adjustable entry height to ease ingress and egress
- Automatic protection against chassis twist

The user-friendly touchscreen provides RV owners with easy control and selection of either auto-leveling or four-point manual control of the leveling actuators. Three digital "bubble level" indicators show the exact vehicle stance, and clear visual feedback on vehicle status is provided.

"The Red Diamond™ Leveling System takes the hassle out of leveling while stationary and also while getting over bumps or under a low garage door thanks to our innovative air spring and control panel setup," said Steve Guillaume, President of Shyft Specialty Vehicles. "Solutions for easier leveling are a common request among RVers. This is a great solution to help our loyal customers who have coaches not already equipped with air leveling."

RV SuperShow attendees are invited to visit the Spartan RV exhibit at 560 E Midway to learn more about the new leveling system and other aftermarket offerings.

The Shyft Group

The Shyft Group is the North American leader in specialty vehicle manufacturing, assembly, and upfit for the commercial, retail, and service specialty vehicle markets. Our customers include first-to-last mile delivery companies across vocations, federal, state, and local government entities; the trades; and utility and infrastructure segments.
